SERVICE AND SALES DATA

You define when you want to schedule a transfer of data.

CUSTOMER AND SALES DATA

Customized reports and delivery times that you choose.

FEATURES

Data transfers can be handled using FTP, email, or direct communication.

DATA AGGREGATION

We can receive all your third party data and provide you with a single standardized feed.

REPORTING ADVANTAGE

We keep historical data. We can generate Monthly, Quarterly or Annual trending reports built to your specifications.

SECURE

Data theft is an increasing risk to all companies. Your data is at risk without the proper secure technologies in place. Don't trust just anyone to manage your data.

RELIABLE

Using our streamlined process, we provide a secure, reliable and consolidated data feed, allowing you to access accurate information immediately.

Stop wasting time and money on managing data. We can aggregate data feeds from over 100 suppliers.

EFFICIENT

DataCube can normalize and send your data to your partners, making your inventory visible to more people in more places than you ever thought possible.

The process is easy. We first retrieve raw data from the sources. Next, we refine the data set with enhanced data and provide images. Then, with the click of a button, the data is ready to be distributed.
